

Solar PV Loans with 100% financing and no money down.

Our fixed loan payments are designed to be less than your current energy bill, so you start saving right away. When you pay off the loan, you'll own the system, and your savings will only grow. Plus, your loan helps us make clean energy accessible to more people.

Concerned about loan rates dropping? We've got you covered! Before your loan closes, we'll review your rate, and if it's decreased in your loan tier, we'll automatically adjust it! And don't worry—your rate is locked in for 6 months, so it can only go down, never up!

THE RATE PROMISE

Fixed Rates

[Click here to view rates online](#)

60 days no payments and no interest

Loan amounts up to \$125,000 per loan

LUMP-SUM TOWARDS PRINCIPAL
Lower your monthly payment while keeping the same interest rate and original loan term for a fee of \$75 or for FREE on a one-time basis if accompanied by a prepayment of 15% or more of the original loan amount

LOWER YOUR MONTHLY PAYMENT
